

AGI Batco belt conveyors are built tough to perform and last, yet designed for gentle handling of delicate commodities to ensure you get the most value out of your crop.

Long life and minimum impact, along with maximum seed germination are just a few simple reasons to choose a belt conveyor.

Speed, reliability and ease-of-use are the reasons farmers choose Batco.

AGI Batco manufactures swing-away conveyors and field loaders as well as, low profile transfers, pit stops and custom conveying options.
