

PRODUCT RELEASE NOTICE

Date Issued: 8/20/2018

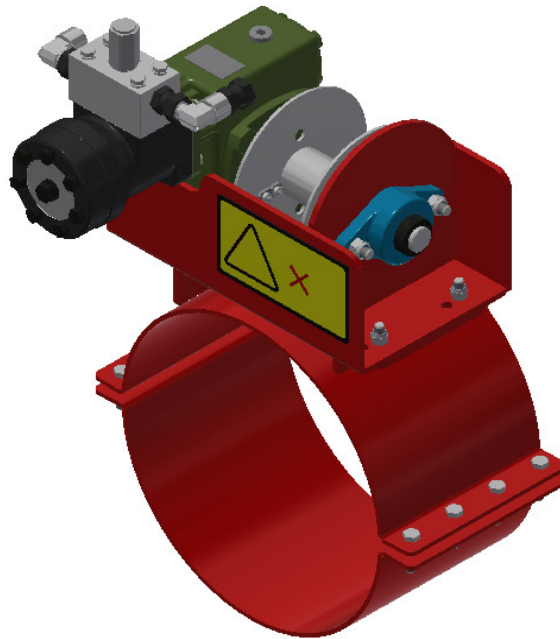

Reference #: 2929

Product: Hydraulic Hopper Lift Winch for 8", 10", 13" Swing-Away Augers

The hydraulic hopper winch can be installed on a swing away auger to make raising and lowering of the swing-away hopper easier. The newly designed winch is a modular two piece half band design for easy installation along the hopper tube. The winch utilizes a 20:1 worm gearbox and a 3.2 cubic inch displacement orbital hydraulic motor to lift the swing away with ease.

New catalog numbers will be effective on 9-1-2018.
