

DECAL UPDATE BULLETIN

DATE	December 14, 2020
BRAND	Westfield, AGI, Hutchinson, Mayrath
PRODUCT	All products
MODEL	All models
DATE RANGE	Starting October 1, 2020
DETAILS	AGI has implemented a new style of decal and layout. This bulletin goes into more detail on placement and sizing.

As of October 1, 2020, you should be receiving an extra pair of decals compared to previous years. This new style is being implemented on all makes and models of augers. Below is an example of what the layout should look like. Every auger has different locations, but the approximate layout stays the same.

UTX 44

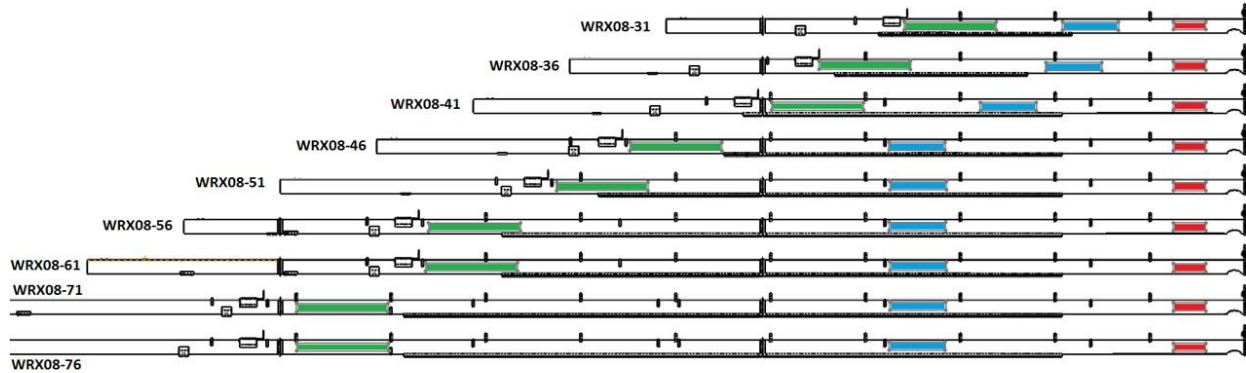

The “Brand” decal and “Model/Size” decal will always be 5” in height, while the “AGI” decal varies in size depending on the auger. The larger size AGI decal always goes at the top of the auger.

**For the entire lineup of augers and their layout, see below or click [here](#).
