

PRODUCT RELEASE NOTICE – PRODUCT BULLETIN

ID#	220127 – 2 - PROJECT 2990
DATE	1/27/22
BRAND	Hutchinson
PRODUCT	Grain Pump Loop Systems – Rotary Discharge Gates
MODEL	8" ,10" , 12"

DETAILS

AGI-Hutchinson is introducing a side inlet for the Grain Pump Rotary Discharge Gate. The side inlet can handle a capacity of up to 23,000 bushel per hour. The inlet bolts directly to the 12" rotary discharge outlet flange, with adapter plates to bolt up to the 10" and 8" discharges. The inlet has a spring-loaded lid to ease in opening and closing and can be latched, using the rubber latches, when not in use. 100' of wire rope is included for ground operations of the lid.
